

Arfin Noor Rahman

Software Developer · Frontend & AI Integration

Dhaka, Bangladesh · arfinnoorrahman12@gmail.com · +880 1739 673620 · [GitHub](#) · [Portfolio](#) · [LinkedIn](#)

Frontend-focused Software Developer with 2+ years of experience building SaaS products and AI-powered web applications. Proficient in Next.js, TypeScript, and Tailwind CSS with hands-on LLM API integration. Proven ability to take products from zero to production, having independently shipped two SaaS tools end-to-end.

EXPERIENCE

Software Developer · SEOVOLTZ · Full-time, On-site *May 2024 – Apr 2026*

- Architected and shipped SaaS and internal web apps using Next.js App Router and TypeScript; cut average time-to-launch ~30% through reusable component systems.
- Improved Core Web Vitals across 3 client products — Lighthouse scores from ~60 to 90+ and page loads from ~4s to under 1.5s by leveraging the right mix of CSR, SSR, and ISR strategies.
- Introduced Tailwind CSS 4 + Shadcn UI as team design system, reducing per-feature UI dev time ~40% across a 4-person team.

Frontend Developer · Moynaa · Internship, Remote *Oct 2023 – Mar 2024*

- Built WCAG-compliant UI components for a health-tech platform; improved task completion rates ~25% in user testing and delivered mobile-first interfaces across 5+ features in 6 months.
- Reduced frontend bug backlog ~35% through methodical code review and component refactoring in the final sprint cycle.
- Collaborated with a remote cross-functional team across design, backend, and QA — consistently delivering features on schedule within a structured sprint cadence.

SKILLS

Frontend: JavaScript (ES6+), TypeScript, React.js, Next.js, Astro.js, Tailwind CSS 4, Shadcn UI, Redux Toolkit, Zustand

Backend & DB: Node.js, Express.js, Prisma, Supabase, PostgreSQL, MongoDB, Better-Auth, Clerk Auth

AI & Integrations: Vercel AI SDK, Gemini AI, Claude API, Prompt Engineering, AI-assisted Development

DevOps & Tools: Git, GitHub, Vercel, VPS, Coolify, Docker

KEY PROJECTS

HireLens AI [Live](#) · [Source](#)

Next.js · TypeScript · Tailwind CSS 4 · Supabase · Vercel AI SDK · Gemini Flash · Clerk Auth

- Built a Gemini Flash AI pipeline to rank and score resumes against job descriptions, generating structured match summaries and cutting manual screening time by ~60%.
- Engineered a client-side bulk PDF extraction engine supporting up to 10 simultaneous uploads with real-time processing feedback — no backend file storage required.
- Designed a recruiter dashboard with candidate pipeline management, real-time notifications, and role-based access control via Clerk Auth.

ShipNext [Live](#) · [Source](#)

Next.js · TypeScript · Tailwind CSS · Prisma · PostgreSQL · Better-Auth

- Launched public feature-request boards with community upvoting, giving founders real-time visibility into user priorities without additional tooling.
- Built a centralized dashboard to manage and track feature statuses across boards, consolidating a workflow that previously required 3+ separate tools.
- Developed a lightweight analytics engine that identifies top user pain points and delivers automated weekly trend summaries for data-driven roadmap decisions.
